DESCRIPTION OF THE ASSESSMENT SCALE

The indicator of the assessment of mastering the MAJOR is formed on the basis of combining the current and intermediate certification of the student.

The rating indicator for each discipline is expressed as a percentage, which shows the level of preparation of the student.

Current certification. A 100-point grading system is used. The evaluation of the student's work during the semester is carried out by the teacher in accordance with the system of evaluation of academic achievements developed by him in the process of studying.

In the work programs of disciplines and practices, the types of current certification, the planned results of tests and criteria for evaluating academic achievements are fixed.

During the semester, the teacher conducts at least 3 tests to assess the student's activities. If attendance of classes in a discipline is included in the rating, then this indicator is no more than 20% of the maximum score in the discipline.

Intermediate certification. A 5-point grading system is used. The evaluation of the student's work at the end of the discipline (part of the discipline) is carried out by the teacher in accordance with the system developed by him for evaluating the student's achievements in the process of studying this discipline. Intermediate certification is also carried out at the end of the formation of competences.

The procedure for transferring the rating provided for by the assessment system, on the discipline, to a five-point system.

High level - 100% - 70% - excellent, good.

The average level is 69% - 50% - satisfactory.
